

# 10 m / 15 m Ultra HD USB-C Active Optical Cable

## UE3410F / UE3415F

The UE3410F / UE3415F is a USB-C full-featured active optical cable that handles high-speed data and video transmission and up to 60W power delivery for a distance of up 10 / 15 m simultaneously. It supports two operating modes – either 2-lane (DP 1.4 + USB 3.2 Gen 2 at 10 Gbps) or 4-lane (DP 2.1 UHBR10 + USB 2.0 at 480 Mbps) up to 4K @ 60 Hz. Cable construction using premium materials brings high resistance to EMI / RFI, making it suitable not just for educational and conference scenarios, but also sensitive applications in medical industry.

UE3410F

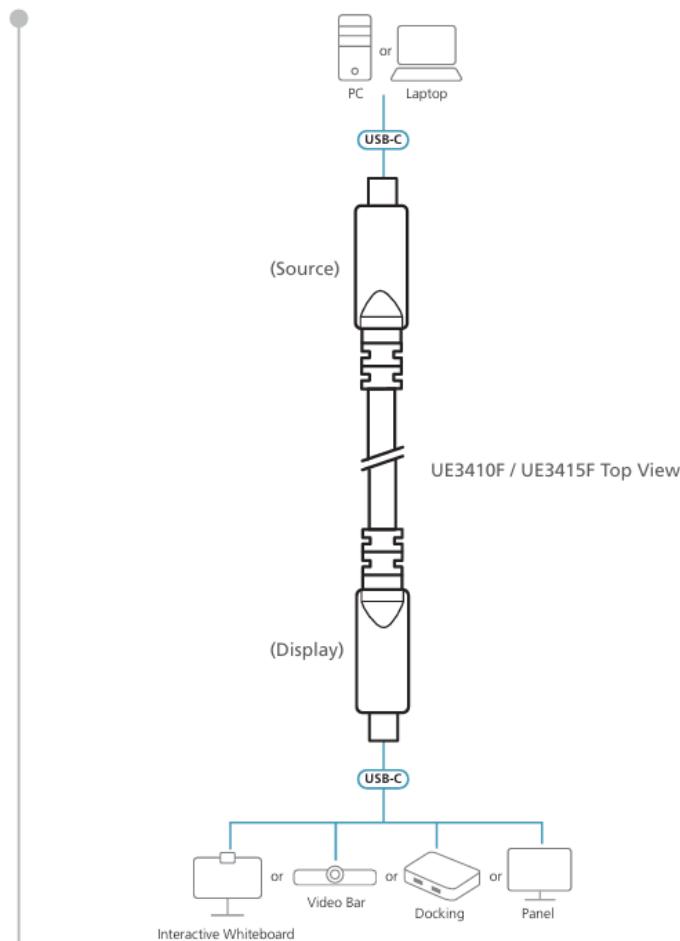

UE3415F

### Features

- Extends distance between PCs and USB-C peripherals up to 10 / 15 m
- Supports 60W Power Delivery
- Supports either 4-lane DP2.1 UHBR10 + USB 2.0 (480 Mbps) or 2-lane DP 1.4 + USB 3.2 Gen 2 (10 Gbps) depending on the requirements of the connected device
- Supports resolutions up to 4K@60Hz (without HDR or DSC)
- Backward compatible with USB 2.0 / 1.1
- Highly resistant to EMI and RFI due to high quality material construction
- Plug-and-play

### Specifications

	UE3410F	UE3415F
<b>Connectors</b>		
USB Port	1 x USB-C Male	
Downstream	1 x USB-C Male	
<b>Cable Type</b>	Hybrid type with optical fiber and copper wire	
<b>Cable Length</b>	10 m	15 m
<b>Data Rate</b>	Up to 10 Gbps	
<b>Power Consumption</b>	DC5V:1.2W	DC5V:2W
<b>Environmental</b>		
Operating Temperature	0 – 40 °C	
Storage Temperature	-20 – 60 °C	
Humidity	10 - 80% RH, Non-Condensing	
<b>Jacketed</b>		
Material	PVC	
Color	Black	
<b>Physical Properties</b>		
Housing	Connector Case: Zinc-Alloy	
Weight	0.77 kg	1.10 kg
