

10 M / 20 M USB 3.2 Gen1 Extender Cable

UE331C / UE332C

The UE331C / UE332C is a USB 3.2 Gen 1 extender cable for adding 10 / 20 m to the connection between a USB Type-A enabled PC / laptop and a USB-C device. With the support of up to 5 Gbps Super Speed data transfer rates, the UE331C / UE332C is backward compatible with USB 2.0 and 1.1 standards, ensuring reliable data communication.

Deployment is made more flexible thanks to its lightweight, small form factor with plug-and-play design, along with the multiplatform support, including Windows and macOS. The 2 screw holes on the USB-C female connector fulfill the increasing demands for secure interconnection in industrial applications. The UE331C/UE332C is an ideal solution when it comes to lengthening USB connection while keeping fast, reliable data syncing performance.

Features

- UE331C / UE332C extends the USB signal from a USB Type-A PC / laptop to a USB-C device 10 / 20 m away
- Supports USB 3.2 Gen1 specifications of up to 5 Gbps data transfer rates
- Lightweight, small enclosure with 2 screw holes on the USB-C female connector deliver enhanced flexibility and secure interconnection
- Multiplatform support – Windows and macOS
- Plug-and-play – no drivers needed
- Additional power adapter included

Specifications

	UE331C		UE332C	
Connectors				
USB Port	1 x USB 3.2 Gen 1 Type-A Male			
Downstream	1 x USB-C 3.2 Gen 1 Female			
USB Specification	USB 3.2 Gen 1 / 2.0 / 1.1 for Super / High / Full or Low Speed			
Cable Length	10 m		20 m	
Data Rate	Up to 5 Gbps			
Environmental				
Operating Temperature	0 – 40 °C			
Storage Temperature	-20 – 60 °C			
Humidity	0 - 80 % RH, Non-condensing			
Physical Properties				
Housing	Plastic			
Weight	0.77 kg		1.53 kg	
Dimensions (L x W x H)	6.5 x 1.22 x 1.2 cm
