

2M USB 2.0 TYPE AM-AF CABLE

(USB-CAB-2—EXT)

Available in various range from 2/3/5M

Product Description

When you need more distance, this cable will extend the reach of your USB A/B cable. Foil and braid shielding reduce EMI/RFI interference and twisted pair construction helps reduce crosstalk for a high speed, error-free data transfer. USB 2.0 compatible. PC and Mac® compatible.

Please Note: Not for use beyond a total extended single length of 5 metres. For longer lengths or high-powered devices, please use #81655, 5m USB A Male to A Female Active Extension Cable.
