

## **2M USB 3.0 AM-AM CABLE (USB3.0-AM-AM-2M)**

### **Features**

- Higher transfer rates: standard 2.0 connectors provides up to 480Mbps of ultra-fast data transmission rate.
- Strong anti-interference: low lead low cadmium SR-PVC insulation, copper mesh weaving design can effectively shield electromagnetic interference.
- Transmission stability: data wire double stranded and modular stress relief device ensure no error data transmission.
- Hi-fi design: USB 3.0 a male to a male data cable gives full to performance, to ensure that charging and data transmission at the same time.
